

### *Tips for Preparing Your Quilt Top for Longarm Quilting*

- ❁ Avoid wavy borders. When measuring for borders, measure the width and length along the center of your quilt top. If necessary, ease the edges to the borders when stitching them together.
- ❁ The batting & backing should be at least 4 inches larger than the quilt top on all sides.
- ❁ Leave the top, batting & backing separate. Do not pin or sew them together.
- ❁ Trim loose threads and make sure that all your seams are pressed and lie flat.
- ❁ If your quilt top and/or backing has a definite upper edge, please label it with a scrap of paper pinned to the upper edge.
