

Bed Size Quilts

A quilt can be any size. However, if you want to know how your quilt will fit a standard mattress or if you are planning a quilt to fit someone's bed, here are some measurements that may help.

Drop is the amount that hangs over the edge of the mattress.

Tuck is the amount that tucks under the pillow

The following measurements* are for comforters which usually have a short drop & tuck. If you are planning a quilt to be used as a bedspread with longer drops, you'll have to add more. All measurements are in inches.

Cal King/King	110 x 96
Queen	86 x 94
Full	80 x 90
Long Twin/Twin	68 x 86
Crib	36 x 52

*from Bed, Bath & Beyond

Standard US mattress sizes are illustrated in the following image.
